
Requirement of a product's process step:
Filling with FillVolume 2.0 mL, result FillWeight
Goal regression on the Capability Description
ContentVolume = 2.0
Weighed
Dosing: Dispense(2.0)
Weighing: Weigh
needs Position = 40
needs Position = 0
Positioning: MoveAxis(40)
Positioning: Home
ending in the rest state: Position 0, Referenced, Tared
PlannedFilling, lifted to a partial order
MoveAxis 40
Dispense 2.0
Home
Weigh
no two steps are independent, so none run in parallel
